

PAGE Sustainability Statement

Having taken the Step Forward Pledge last year, it has helped us to reassess and then focus our actions on reaching our social, environmental, and economic goals for the business. The pledge has been a key motivator in driving some of our most pivotal sustainability targets and helping us to achieve success in areas we found to need further development.

Here at PAGE Partnership, we always endeavour to be environmentally conscious; from our use of advertising to our selection of products that go into the catalogues we produce.

We at PAGE continue to understand that everyone must play an active part in reducing the impact their business has on the environment and that there must be transparency in all actions taken to further this cause.

We acknowledge that as with any business, we can always strive to do better and thus become better and so we pledge to do just that.

The key areas in our business which we have found to need a rejuvenation of effort and time are:

- Investment in local charities and fundraising (especially those advocating sustainability and environmentally friendly practices)
- Reduction of water and energy use
- Minimizing waste by recycling and re-using materials
- Reduction of fuel emissions when travelling to/from work or when visiting members and suppliers
- Reducing the company's carbon footprint
- Providing sustainability training for staff

Having reviewed and revised our statement we agree to continue to do this in the future so that it always reflects the business' current ideals and goals.

Let us unite in making the promotional merchandise industry a true ambassador for all things GREEN!

Sincerely

Jordan Ball

Administrative Assistant
